

# 2020 Impact Report

Driven by a Sense  
of Community

## From Our CEO

Since its inception, UWorld was founded on the principle of helping people. It's the reason for our company's existence and we work hard every day to help others achieve excellence in their pursuit of higher education and rewarding careers. We view philanthropy as an extension of that same mission. We invest in our community, not because we have to but because we want to.

Education is what we do. We are committed to building partnerships with community organizations that are dedicated to making a positive impact on education. We do so by investing our time, talent, and resources to those causes. From the people we hire to the values we espouse, we want UWorld's legacy to be about the people we help.

Chandra S. Pemmasani, MD  
UWorld Founder & CEO

## Our Philosophy

As a recognized industry leader for building online learning tools, we have established ourselves as a trusted stakeholder in education at the highest levels. We know our achievements are thanks to more than just our efforts and this sense of responsibility drives us to reinvest in the amazing communities we serve.

## Community Impact

**\$2M+**

Granted in product scholarships to aspiring accountants, lawyers, and graduate school students.

**\$90K**

Invested in education and social services in response to the COVID-19 pandemic and call to action for social equity.

**1 out of 4**

Approximately 25% of our employees serve on the frontline of the fight against COVID-19.

**\$5M+**

Donated in renewed access and subscription extensions for users affected by COVID-19 exam delays.

## Employee Engagement

Employees have donated to food banks that serve thousands of public school students who rely on their schools for daily meals. We were proud to host a blood drive in response to the nationwide blood shortage following COVID-19. Additionally, employees are given options to donate financially through paychecks for relief efforts.

## Statement on Equality

To promote equality in the workplace and in education, we proudly launched an internal committee that meets and conducts company-wide events to champion anti-racism, diversity, inclusion, and awareness in our company and communities through education, philanthropy, and activism. These events include lunch-and-learn presentations, guest speakers, recommended reading lists, and employee highlights that discuss relevant and trending topics.

## Partnerships

We are proud to partner with a variety of student organizations to provide discounted or free access to a wide range of product offerings, including support for underserved and disadvantaged students.
